This repo contains raw data from the caniuse.com support tables. It serves two purposes:

1. The ability for anyone interested to update or add to the support data on the site. If you are interested in this, please read the [CONTRIBUTING file](#).
2. Access to the site's data for other projects. For this use the [data.json](#) file which includes all support data.

The data in this repo is available for use under a CC BY 4.0 license (<https://creativecommons.org/licenses/by/4.0/>). For attribution just mention somewhere that the source is caniuse.com. If you have any questions about using the data for your project please contact me here: <http://a.deveria.com/contact>

Thanks,

Alexis Deveria
